

Core and Supporting Conservation Practices for Longleaf Pine Initiative (FY 2012):

LLPI Core Conservation Practices		
Practice Name	Number	Units
Forest Stand Improvement	666	ac
Prescribed Burning	338	ac
Restoration and Management of Rare and Declining Habitats	643	ac
Tree/Shrub Establishment	612	ac
LLPI Supporting Conservation Practices		
Access Control	472	ac
Brush management	314	ac
Conservation Cover	327	ac
Early Successional Habitat Development/Mgt.	647	ac
Fence	382	ft
Firebreak	394	ft
Forest Trails and Landings	655	ac
Fuel Break	383	ac
Herbaceous weed control	315	ac
Integrated Pest Management	595	ac
Silvopasture Establishment	381	ac
Tree/Shrub Pruning	660	ac
Tree/Shrub Site Preparation	490	ac
Upland Wildlife Habitat Management	645	ac
Wetland Wildlife Habitat Management	644	ac
Woody Residue Treatment (replaces Forest Slash Treatment)	384	ac
<p>The Longleaf Pine Initiative NRCS State Conservationists Board of Directors (BOD) approved the above list during a video teleconference meeting on Tuesday 11/1/2011. (Note: The BOD added the following supporting practice codes for FY 2012: 314 – Brush management, 327 Conservation Cover, and 315 Herbaceous weed control. There are no changes to the core practices for FY 2012.)</p>
