SCREENING PRIORITY	
---------------------------	--

EQIP is a competitive financial assistance program and applications are screened and ranking based on the expected conservation benefits of planned practices in the EQIP schedule of operations. This screening worksheet must be completed for each eligible applicant applying for financial assistance. Applications are accepted on a continuous basis; however, application cutoff periods are established for purposes of ranking and funding decisions. A screening worksheet can be processed for each application cutoff period. The goal of this screening tool is to ensure that conservation technical assistance and EQIP program benefits are managed efficiently to address priority conservation needs. Completion of this worksheet and documentation does not constitute an agreement to provide EQIP program benefits nor approval of a program contract. The original screening worksheet should be filed with the applicant case file or EQIP program file and unless the application is determined to be ineligible, the screening priority (High, Medium, and Low) must be recorded in ProTracts. Upon request, a copy of any completed screening worksheet may be provided to the applicant. Rank only the High screened applications.

YES	NO	SCREENING QUESTIONS
<i>If Yes, continue to the next question</i>	<i>If No, LOW Priority status in ProTracts</i>	<i>Mark YES or NO over on the left</i>
		The applicant's EQIP Schedule of Operations will be uploaded to the NRCS business tool, ProTracts, before the ranking deadline.
		The project treats a priority SWT LWG resource concern.
		The applicant completed any existing contracts between 2014 and 2016 on schedule, or delays were caused by NRCS (Yes if N/A)
		The applicant did NOT have an NRCS contract terminated in fiscal years 2014-2016 .
