

Snake River Funding Pool Screening Tools

Funding Pool

Applicant Name

Application Number

Farm Number & Tract(s)

Crop (Irrigated)

Will an overhead sprinkler or drip irrigation system replace a surface irrigation system?

Does the conservation treatment include Cover Crop and IWM?

Crop (Dryland)

Will the proposed treatment include high Residue Mulch Till or No-till Direct Seed and the treatment includes planting perennial cover?

Pasture (inefficient use of irrigation water)

Will a sprinkler system, with an estimated efficiency of greater than or equal to 80%, replace an existing irrigation system?

Pasture (degraded Plant condition)

If Riparian areas are present, will the proposed treatment control livestock access by fencing?

Will the proposed treatment include planting a windbreak, shelterbelt, or shrubs?

Will the proposed treatment include noxious weed or woody vegetation control?

Range (degraded Plant condition)

If Riparian areas are present, will the proposed treatment control livestock access by fencing?

Will the proposed treatment include planting a windbreak, shelterbelt, or shrubs?

Will the proposed treatment include noxious weed or woody vegetation control?

Farmstead

Has a CNMP been developed?

If the answer to the question is yes, check the box. If a box is not checked for a funding pool question, then the application will be medium priority.

If all funding pool questions are answered yes, the application is high priority and a field verification is required.

The EQIP application is high priority?

The EQIP application is medium priority?
