

Iowa Class 1 and Class 2 Trout Streams (2016)

CLASSIFICATION OF TROUT NATURAL REPRODUCTION

Category I - Streams that exhibit fairly consistent natural reproduction and maintain a viable population of the listed species without any stocking.

Category II - Streams that exhibit recent, but inconsistent, reproductive success and are not capable of maintaining a viable population of the listed species at this time.

Effective Date - January 1, 2016

Stream	County	Category/Species		Length in Miles
		I	II
