

## Overview - Delaware

The Agricultural Management Assistance Program (AMA) helps agricultural producers use conservation to manage risk and address natural resource issues through natural resources conservation. NRCS administers the AMA conservation provisions, while the Agricultural Marketing Service and the Risk Management Agency implement other provisions under AMA.

# AMA

Agricultural Management Assistance Program

USDA's Natural Resources Conservation Service offers voluntary Farm Bill conservation programs that benefit agricultural producers and the environment.

### Benefits

Producers receive conservation technical and financial assistance to:

- construct or improve water management or irrigation structures,
- plant trees for windbreaks or,
- diversify their operation and conservation practices in order to improve water quality and mitigate risk. These practices may include soil erosion control, integrated pest management or a transition to organic farming.

Persons or legal entities cannot receive more than \$50,000 in AMA program payments per fiscal year.

## Eligibility

AMA is available in 16 states where participation in the Federal Crop Insurance Program is historically low: Connecticut, Delaware, Hawaii, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia and Wyoming.

Persons and legal entities who receive payments under the AMA program are subject to the Adjusted Gross Income limitation provisions. All participants must agree to implement and maintain conservation practices for the life of the practice.

Eligible land includes agricultural land, nonindustrial private forest land or other land on which agricultural products, livestock, or forest-related products are produced and where risk may be mitigated by

diversifying the operation or adding conservation practices that support soil erosion control, integrated pest management and organic farming.

## How to apply

Visit your local USDA Service Center to apply or visit [www.nrcs.usda.gov/getstarted](http://www.nrcs.usda.gov/getstarted).

## More Information

For more information visit your local USDA Service Center or [www.nrcs.usda.gov/farmbill](http://www.nrcs.usda.gov/farmbill).

## What's new in AMA

New adjusted gross income (AGI) requirements apply. The AGI limitation is now set at \$900,000.

Windbreaks are vegetative barriers made up of trees, shrubs and/or grasses planted to provide shelter from the wind and to protect against soil erosion.
