Change Description:

Requesting intallation of IMPLAN Pro V 3.0 software on assigned computer.

Justification:

This program will be used by the state economist to run impact analysis on federal cost share funds.

Impact Assessment:

I am not aware of any business or technical functions that could be affected by these changes.

Deployment Plan:

The IT staff will need to install the software upon receipt of the approval. CD's do not need to be duplicated for further distribution.

Roll-Back Plan:

If there is a problem with the software and it needs to be removed it can easily be uninstalled.
